***Update March 31, 2020***

To Our Valued Customers and Suppliers,

There is no higher priority than the health and well-being of our employees and their families. It is our social obligation to take the necessary actions to slow the spread of the COVID-19 virus. With the best interest of our employees and in response to Governor Whitmer's "Stay Home, Stay Safe" executive order in Michigan along with Governor Hogan's executive order to close all non-essential businesses in Maryland, Canfield Equipment is suspending **all** operations at both our Warren, MI. and Dundalk, MD. facilities effective today, Tuesday, March 24<sup>th</sup>. with the tentative plan of reopening with full production operations on **Tuesday, April 14<sup>th</sup>**.

Our sales and internal support team will be working remotely and operating in a business as usual manner during this time. Our quoting, purchasing, and accounting functions will continue to operate in normal fashion and provide our customers with the highest level of support.

***Effective today, we are completely shutting both of our facilities down and will no longer have the capability to receive/ship vehicles and parts from our suppliers.***

Thank you for your support!! We will continue to communicate openly with you on any changes that occur going forward with our production. In the meantime, if you have any questions, please feel free to reach out to your normal Canfield contact.
