

Consolidated Financial Statements

**Element Fleet Management Corp.**  
**[formerly, Element Financial Corporation]**

December 31, 2016

## INDEPENDENT AUDITORS' REPORT

To the Shareholders of  
**Element Fleet Management Corp.**

We have audited the accompanying consolidated financial statements of **Element Fleet Management Corp.**, which comprise the consolidated statements of financial position as at December 31, 2016 and 2015, and the consolidated statements of operations, comprehensive income (loss), changes in shareholders' equity and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

### **Management's responsibility for the consolidated financial statements**

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of **Element Fleet Management Corp.** as at December 31, 2016 and 2015, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

See accompanying notes

# Element Fleet Management Corp. [formerly, Element Financial Corporation]

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

### 1. CORPORATE INFORMATION

Element Fleet Management Corp. ["Element Fleet", "EFN" or the "Company"], formerly Element Financial Corporation ["Element"] was incorporated under the *Business Corporations Act* of Ontario (Canada) on May 11, 2007 and commenced operations on that date. The registered office of the Company is 161 Bay Street, Suite 3600, Toronto, Ontario. The Company is a public corporation traded on the Toronto Stock Exchange under the symbol "EFN".

On February 16, 2016, the Board of Directors of Element Financial Corporation approved a plan to separate Element into two publicly-traded companies [the "Separation"]. The plan involved the separation of the portion of Element and its subsidiaries comprising the Commercial and Vendor ["C&V"] Finance, Rail Finance and Aviation Finance verticals from the existing corporate structure into ECN Capital Corp. ["ECN Capital"], a newly created publicly traded company. The Fleet Management vertical continues to operate within the existing corporate structure and has been renamed Element Fleet Management Corp.

The Separation of Element into ECN Capital and Element Fleet has been implemented through a court approved plan of arrangement and was approved at a special meeting of the Element shareholders on September 20, 2016 and received final approval from the Ontario Supreme Court of Justice on September 21, 2016.

The Separation was effective on October 3, 2016. On the Separation, common shareholders were granted one common share of Element Fleet and one common share of ECN Capital in exchange for each Element share. The information herein reflects the completion of the Separation, with Element Fleet presented as continuing operations and ECN Capital, prior to October 3, 2016, presented as distributed operations, both derived from the accounting records of Element as if the businesses had operated on a stand-alone basis for the current and prior periods. Element Fleet includes the Fleet Management vertical business and ECN Capital includes Rail Finance, C&V Finance, and the Aviation Finance vertical businesses. The majority of the assets and liabilities in the Element Fleet consolidated statements of financial position have been derived from this vertical organization. The Element Fleet consolidated statements of operations reflect intercompany expense allocations made by Element for certain corporate functions, shared services, and employee related costs, for all pre-separation periods. Where possible, these allocations were made on a specific identification basis.

Management believes both the assumptions and the allocations underlying the Element Fleet consolidated financial statements are reasonable for the pre-separation periods. However, as a result of the basis of presentation described above, the consolidated financial statements may not be indicative of Element Fleet's results of operations, financial position and cash flows in the future or of what Element Fleet's operations, financial position and cash flows would have been if the business had operated as a stand-alone company for the entire period reported.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

Element Fleet is a publicly traded fleet management company with more than \$18.0 billion in assets and operations in the U.S., Canada, Mexico, Australia and New Zealand. Element Fleet is a leading global fleet management company, providing world-class services and financings for commercial vehicle and equipment fleets, serving 50 countries worldwide through the Element-Arval Global Alliance. EFN provides a comprehensive range of fleet services that span the total lifecycle, from vehicle acquisition and financing to program management and remarketing - helping more than 2,800 customers optimize their fleet performance and productivity.

Prior to October 3, 2016, the Company organized its activities and operations around four verticals: [i] Fleet Management; [ii] Rail Finance; [iii] C&V Finance; and [iv] Aviation Finance. Fleet Management provides vehicle fleet leasing, management solutions, and related service programs including service cards, remarketing, maintenance management and accident services. Rail Finance provides leases and other secured financing for railcars for the North American rail industry. C&V Finance, in conjunction with manufacturers and distributors, delivers financing and leasing solutions to end-user customers in the transportation, construction, commercial, industrial, healthcare, golf, technology and office products sectors. Aviation Finance provides leases and other secured financing for corporate airplanes and helicopters.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Statement of compliance**

These consolidated financial statements are prepared in accordance with International Financial Reporting Standards ["IFRS"] as issued by the International Accounting Standards Board.

These consolidated financial statements were authorized for issuance by the Board of Directors of the Company on March 9, 2017.

**Basis of consolidation**

**Subsidiaries**

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries from the dates of their acquisition. Transactions and balances amongst these entities have been eliminated upon consolidation.

Subsidiaries, which include certain private partnerships and structured entities, are entities over which the Company has control. The Company controls an entity when [1] it has the power over the entity; [2] it has exposure, or rights, to variable returns from its involvement with the entity, and [3] it has the ability to use its power over the entity to affect the amount of its returns.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

**Associates and Joint Ventures**

Associates and joint ventures are entities which the Company has significant influence or joint control, but not control, over the operating and financial management policy decisions of the entity. Significant judgment is used to determine whether voting rights, contractual management and other relationships with the entity, if any, provide the Company with significant influence over the entity. Investments in associates and joint ventures are accounted for using the equity method and initially recorded at cost. Subsequently, the investment in an associate or joint venture is adjusted for changes in the Company's share of net assets of the associate or joint venture and such changes are reflected in the consolidated statements of operations.

**Significant accounting policies**

**Finance receivables**

The Company provides financing to customers through direct financing leases and loans.

Direct financing leases, which are contracts under terms that provide for the transfer of substantially all the benefits and risks of the equipment ownership to customers, are carried at amortized cost. These leases are recorded at the aggregate minimum payments plus residual values accruing to the Company less unearned finance income. Unearned finance income includes origination fees earned.

Loans are recorded at amortized cost using the effective interest rate method. Interest income is allocated over the expected term of the loan by applying the effective interest rate to the carrying amount of the loan. Unearned finance income includes loan origination fees earned.

Initial direct costs that relate to the origination of the finance receivables are deferred and recognized as yield adjustments using the effective interest method over the term of the related financial asset. These costs are incremental to individual leases or loans and comprise certain specific activities related to processing requests for financing, such as the costs to underwrite the transaction and commission payments.

Direct financing leases and loans are recognized as being impaired when the Company is no longer reasonably assured of the timely collection of the full amount of principal and interest. As a matter of practice, a direct financing lease or a loan is deemed to be impaired at the earlier of the date it has been individually provided for when timely collection is not assured or when it has been in arrears for 120 days. When amounts receivable are considered impaired, their book value is adjusted to their estimated realizable value based on the fair value of any collateral underlying the receivable, net of any costs of realization, by totally or partially writing off the loan and/or establishing an allowance for credit losses.

Also included in finance receivables are secondary receivables, including interim fundings [lease assets in transit to the lessee] and fleet management receivables [amounts receivable from ancillary fleet service revenues, including fuel cards, accident management services and maintenance].

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

**Equipment under operating leases**

The Company determines the classification of a lease at its lease inception date.

An operating lease is one that does not transfer substantially all of the risks and rewards of ownership to the lessee.

Operating leases entered into by the Company are reported as “Equipment under operating leases” and are carried at cost less accumulated depreciation and are being depreciated to their estimated residual values using the straight-line method over the lease term or estimated useful life of the asset up to 10 years from the date of manufacture, with an average term of approximately 45 months.

Rental revenue on operating leases is recognized on a straight-line basis over the lease term and is being reported net of depreciation as “Rental revenue, net”.

Equipment under operating leases is reviewed for impairment when events or changes in circumstances indicate that the carrying amount of those assets may not be recoverable. An impairment loss is recognized for the amount by which the asset’s carrying amount exceeds the higher of the asset’s fair value less costs to sell and its value in use.

**Revenue recognition**

Interest income relates to finance receivables as described above. This income is recognized on an accrual basis using the effective interest rate method for leases and loans that are not considered impaired.

Service and other revenue is recognized as on an accrual basis when such services are provided to the lessee. These services include fuel cards, accident management services and maintenance services. Also included in service and other revenue are syndication fees, which represent commissions received when the Company facilitates a lease arrangement between a lessee and a third party lessor. Syndication fees are recognized as income when the lease syndication has been completed.

**Allowance for credit losses**

The Company reviews its individually significant finance leases and loans at each consolidated statement of financial position date to assess the adequacy of the allowance for credit losses and to determine whether an impairment loss should be recorded in the consolidated statements of operations. In particular, management's judgment is required in the estimation of the amount and timing of future cash flows when determining the allowance. These estimates are based on assumptions on a number of factors and actual results may differ, resulting in future changes to the allowance. Leases and loans that have been assessed individually and found not to be impaired and all individually insignificant leases are then assessed collectively, in groups of assets with similar risk characteristics, to determine whether an allowance should be made due to incurred loss events for which there is objective evidence but whose effects are not yet

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

evident. The collective assessment takes account of data from the lease and loan portfolio, such as levels of arrears and credit utilization, and judgments to the effect of concentrations of risks.

### **Restricted funds**

Restricted funds represent cash reserve accounts that are held in trust as security for secured borrowings and cash collection accounts required by the lenders of certain financial assets that can only be used to repay these debts.

Restricted funds also include amounts posted as collateral for derivative contracts.

### **Derivative financial instruments and hedge accounting**

The Company utilizes derivatives to manage interest rate risk and foreign currency exposure, as well as equity price risk exposure related to the Company's stock compensation plans that are accounted for as liabilities. Derivatives are carried at fair value and are reported as assets if they have a positive fair value and as liabilities if they have a negative fair value.

The Company applies hedge accounting to derivatives that meet the criteria for hedge accounting in IAS 39, *Financial Instruments: Recognition and Measurement* ["IAS 39"].

In order to qualify for hedge accounting, a hedge relationship must be designated and formally documented in accordance with IAS 39. The Company's documentation, in accordance with the requirements, includes the specific risk management objective and strategy being applied, the specific financial asset or liability or cash flow being hedged and how hedge effectiveness is assessed. Hedge effectiveness is assessed at the inception of the hedge and on an ongoing basis, which is at least quarterly. Hedge ineffectiveness is recognized immediately in income.

### **Cash flow hedges**

The effective portion of the change in fair value of the derivative instrument is recognized in other comprehensive income until the forecasted cash flows being hedged are recognized in income in future accounting periods. When forecasted cash flows are recognized in income, an appropriate amount of fair value changes of the derivative instrument in accumulated other comprehensive income ["AOCI"] is reclassified to income. Any hedge ineffectiveness is immediately recognized in income. If a forecasted issuance of fixed rate debt or a forecasted acquisition of fixed rate assets is no longer expected to occur, the related cumulative gain or loss in AOCI is immediately recognized in income.

The Company uses interest rate swaps and foreign exchange forward agreements to hedge its exposure to changes in future cash flows due to interest rate risk and foreign currency risk in forecasted highly probable transactions.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

The Company also uses interest rate derivatives, mainly interest rate swap agreements, to hedge its exposure to changes in future cash flows due to interest rate risk on its floating rate debt.

The Company also uses total return swap agreements to hedge its exposure to changes in future cash flows due to changes in the Company's share price on its stock compensation plans that are accounted for as liabilities.

**Fair value hedges**

The effective portion of the change in fair value of derivative instruments is recognized in net income and are offset against any gains or losses on changes in fair value of the hedged item. The ineffective portion of the change in fair value is recorded in other income.

The Company may use total return swaps to hedge its exposure to changes in the Company's share price on the deferred share unit, performance share unit, and restricted share unit liabilities.

**Hedges of a net investment**

Hedges of a net investment in a foreign operation are accounted for in a way similar to cash flow hedges. Gains or losses on a hedging instrument relating to the effective portion of the hedge are recognized as other comprehensive income while any gains or losses relating to the ineffective portion are recognized in the consolidated statements of operations. On disposal of the foreign operation, the cumulative value of any such gains or losses recorded in equity is transferred to the consolidated statements of operations.

The Company may use foreign currency forward agreements or foreign currency denominated debt as a hedge of its exposure to foreign exchange risk on its investments in foreign subsidiaries.

**Secured borrowings**

The Company periodically transfers pools of finance receivables to third parties, including structured entities. Transfers of pools of finance receivables under certain arrangements, including transfers where a security interest or legal ownership is transferred, do not result in derecognition of the finance receivables from the Company's consolidated statements of financial position and continue to be recognized on the Company's consolidated statements of financial position and accounted for as finance receivables, as described above. As such, these transactions result in the recognition of secured borrowings when cash is received from the third party or structured entity.

The secured borrowings are recorded at amortized cost using the effective interest rate method. Interest expense is allocated over the expected term of the borrowing by applying the effective interest rate to the carrying amount of the liability. The effective interest rate is the rate that exactly discounts estimated future cash outflows over the expected life of the liability. Transaction costs are applied to the carrying amount of the liability.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

Deferred financing costs are presented as a reduction of secured borrowings and relate to costs incurred to obtain funding agreements that result in these arrangements. These amounts are accreted to income over a period matching the repayment terms of the secured borrowing obtained during the initial commitment period.

**Convertible debentures**

The convertible debentures are accounted for as a compound financial instrument with a debt component and a separate equity component. The debt component of this compound financial instrument is measured at fair value on initial recognition by discounting the stream of future interest and principal payments at the rate of interest prevailing at the date of issue for instruments of similar term and risk. The debt component is subsequently deducted from the total carrying value of the compound instrument to derive the equity component. The debt component is subsequently measured at amortized cost using the effective interest rate method. Interest expense based on the coupon rate of the debenture and the accretion of the liability component to the amount that will be payable on redemption are recognized through income as finance costs.

**Property, equipment and leasehold improvements**

Property, equipment and leasehold improvements are recorded at cost. The Company provides for depreciation using the declining balance method for equipment at annual rates designed to depreciate the cost of the equipment over their estimated useful lives. Leasehold improvements are depreciated on a straight-line basis over the underlying lease terms. Buildings, vehicles and computer servers are depreciated using the straight-line method over their estimated useful life. Land is not depreciated. The rates of amortization are as follows:

|                        |  |
|------------------------|--|
| Office equipment       | 30% per annum  |
| Computer equipment     | 55% per annum for general equipment<br>5 years for servers |
| Leasehold improvements | Lease term   |
| Vehicles               | 4 years  |
| Buildings              | 25 years   |

Impairment is recognized when a fixed assets estimated recoverable amount is less than the carrying amount, including reductions in recoverable amount as a result of the Separation.

**Business combinations and goodwill**

Business combinations are accounted for using the purchase method of accounting. This involves recognizing identifiable assets, including previously unrecognized intangible assets and liabilities, including contingent liabilities but excluding future restructuring of the acquired business, at fair value.

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

Goodwill is initially measured at cost and is calculated as the excess of the purchase price for an acquired business over the fair value of acquired net identifiable assets and liabilities and is allocated to the cash-generating units ["CGU"] to which it relates. Goodwill is not amortized but is evaluated for impairment against the carrying amount of the CGU annually or more often if events or circumstances indicate that there may be an impairment. The carrying amount of a CGU includes the carrying amount of assets, liabilities and goodwill allocated to the CGU. If the recoverable amount is less than the carrying value, the impairment loss is first allocated to reduce the carrying amount of any goodwill allocated to the CGU and then to the other non-financial assets of the CGU proportionately based on the carrying amount of each asset. Any impairment loss is charged to income in the period in which the impairment is identified. Goodwill is stated at cost less accumulated impairment losses. Subsequent reversals of goodwill impairment are prohibited.

### **Transaction and integration costs and separation costs**

The Company presents transaction and integration costs and separation costs separately on the consolidated statements of operations because these costs differ from other expenses in their frequency and predictability, and presenting them separately provides useful information to financial statement users.

The Company defines transaction costs as incremental costs that are incurred to effect, and are directly associated with, a business combination. Examples of transaction costs include advisory fees, due diligence fees, professional or consulting fees, certain financing charges, and management compensation directly attributable the transaction. Transaction costs are expensed as incurred.

The Company defines integration costs as incremental costs that are directly associated with a program to integrate an acquired business with the Company's existing operations. Examples of integration costs include staff rationalization, lease cancellations/onerous lease contracts, staff relocation costs, rebranding, consulting fees associated with integration and related restructuring, data migration and disentanglement of operations, and management compensation that is contingent upon the execution of the integration program. Integration costs are expensed as incurred unless earlier recognition is appropriate under the restructuring provision rules within IAS 37, *Provisions, Contingent Liabilities and Contingent Assets*.

The Company defines separation costs as incremental costs that are directly associated with the separation of the Company from distributed operations. Examples of separation costs include staff relocation, rebranding, consulting fees associated with separation-related activities, data migration and disentanglement of operations, legal fees, listing fees, write-offs of abandoned or reduced premises space and related leasehold improvements, and write-offs of certain financing charges. Separation costs are expensed as incurred unless earlier recognition is appropriate under the restructuring provision rules within IAS 37, *Provisions, Contingent Liabilities and Contingent Assets*.

### **Intangible assets**

The Company's intangible assets include computer software and customer relationships and are measured at cost. All of the Company's intangible assets have a finite life, are amortized over their useful economic lives, and are assessed for impairment at each reporting period. Changes in the expected useful life are

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

accounted for by changing the amortization period or method, as appropriate, and they are treated as changes in accounting estimates. The amortization expense is recognized in the consolidated statements of operations.

The rates of amortization are as follows:

|                        |   |
|------------------------|---|
| Computer software      | 3 to 12 years depending on the software application |
| Customer relationships | Declining balance 5% per annum                      |

**Share-based payments**

**Stock options**

The Company issues share-based awards to certain employees and directors. The awards consist of equity-settled stock options and the related cost is measured based on the estimated fair value on the date the awards are granted. The fair value of the stock options is estimated using the Black-Scholes option valuation model. The cost of the stock options issued to employees is recognized on a proportionate basis consistent with the vesting features of each tranche of the grant.

**Deferred share unit plan**

The Company has established a Deferred Share Unit ["DSU"] plan for executives and directors whereby the Company's Board of Directors [the "Board"] may award DSUs as compensation for services rendered. The plan is intended to promote a greater alignment of long-term interests between executives and directors and the shareholders of the Company. The Board determines the amount, timing, and vesting conditions associated with each award of DSUs. Additionally, directors may elect to receive up to 100% of their annual remuneration in DSUs. DSUs granted pursuant to such an election are fully vested on the date of grant.

Each DSU has a value that depends on the fair market value of one common share of the Company and, in the event dividends are paid on the Company's common shares, accrues dividend equivalents in the form of additional DSUs based on the amount of the dividend paid on a common share. DSUs mature upon termination of employment or directorship, whereupon the holder is entitled to receive a cash payment that reflects the fair market value of the equivalent number of common shares.

DSUs are recognized on the consolidated statements of financial position as a liability in accounts payable and accrued liabilities and are measured at fair value. Fair value is a function of the number of DSUs outstanding, the value of the Company's common shares, and, if applicable, the portion of the associated vesting period that has elapsed.

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

### **Performance share unit plan**

The Company has established a Performance Share Unit ["PSU"] plan for employees of the Company and its subsidiaries, whereby the Board may award PSUs as compensation for services rendered. The Board determines the amount, timing, and vesting conditions associated with each award of PSUs.

The plan is intended to promote a greater alignment of long-term interests between employees and the shareholders of the Company. Each PSU has a value that depends on the fair market value of one common share of the Company and, in the event dividends are paid on the Company's common shares, accrues dividend equivalents in the form of additional PSUs based on the amount of the dividend paid on a common share.

PSUs are recognized on the consolidated statements of financial position as a liability and are measured at fair value. Fair value is a function of the number of PSUs outstanding, the value of the Company's common shares, and, if applicable, the portion of the associated vesting period that has elapsed or expectations with respect to performance criteria. Until the PSUs are settled, the liability is remeasured with any change in the fair value recorded in the consolidated statements of operations as an expense in the relevant financial reporting period.

### **Restricted share unit plan**

The Company has established a Restricted Share Unit ["RSU"] plan for employees of the Company and its subsidiaries, whereby the Board may award RSUs as compensation for services rendered. The Board determines the amount, timing, and vesting conditions associated with each award of RSUs.

The plan is intended to promote a greater alignment of long-term interests between employees and the shareholders of the Company. Each RSU has a value that depends on the fair market value of one common share of the Company and, in the event dividends are paid on the Company's common shares, accrues dividend equivalents in the form of additional RSUs based on the amount of the dividend paid on a common share.

RSUs are recognized on the consolidated statements of financial position as a liability and are measured at fair value. Fair value is a function of the number of RSUs outstanding, the value of the Company's common shares, and, if applicable, the portion of the associated vesting period that has elapsed. Until the RSUs are settled, the liability is remeasured with any change in the fair value recorded in the consolidated statements of operations as an expense in the relevant financial reporting period.

### **Earnings per share**

Basic earnings per share are calculated by dividing the net income or loss for the year attributed to common shareholders by the weighted average number of common shares outstanding during the year. Diluted earnings per share are calculated using the same method as for basic earnings per share and adjusted for the weighted average number of common shares outstanding during the year to reflect the dilutive impact, if

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

any, of options and warrants assuming they were exercised for that number of common shares calculated by applying the treasury stock method. The treasury stock method assumes that all proceeds received by the Company when options and warrants are exercised will be used to purchase common shares at the average market price during the reporting period.

### **Other financial instruments**

Other financial instruments held or issued by the Company include cash, restricted funds, finance receivables, accounts receivable, notes receivable, accounts payable and accrued liabilities, and secured borrowings. All of these financial instruments are initially recorded at cost and subsequently measured at amortized cost.

### **Translation of foreign currencies**

The consolidated financial statements of the Company are presented in Canadian dollars, which is the Company's functional and presentation currency. Foreign currency denominated monetary assets and liabilities of the Company and its subsidiaries that have the same functional currency are translated using the closing rate and non-monetary assets and liabilities measured at fair value are translated at the rate of exchange prevailing at the date when the fair value was determined. Revenue and expense items are measured at average exchange rates during the year. Realized and unrealized gains and losses arising from translation into the functional currency are included in the consolidated statements of operations. Foreign currency denominated non-monetary assets and liabilities, measured at historical cost, are translated at the rate of exchange in effect at the transaction date.

Assets and liabilities of foreign operations with a functional currency other than the Canadian dollar, including goodwill and fair value adjustments arising on acquisition, are translated into Canadian dollars at the exchange rates prevailing at the year end, while revenue and expenses of these foreign operations are translated into Canadian dollars at the average exchange rates for the year. Exchange gains and losses arising from the translation of these foreign operations and from the results of hedging the net investment in these foreign operations, net of applicable taxes, are included in net foreign currency translation adjustments, which is included in accumulated other comprehensive income. A deferred tax asset or liability is not recognized in respect of a translation gain or loss arising from the Company's investment in its foreign operations as it is not expected that such a gain or loss would be realized for tax purposes in the foreseeable future.

Upon disposition of a foreign operation, any cumulative translation adjustment gain or loss, including the impact of hedging, will be reclassified from other comprehensive income to the consolidated statements of operations, and included as part of the gain or loss recognized on disposition of the foreign operations.

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

### **Income taxes**

The Company follows the liability method to provide for income taxes on all transactions recorded in its consolidated financial statements. The liability method requires that income taxes reflect the expected future tax consequences of temporary differences between the carrying amounts of assets and liabilities and their tax bases. Deferred tax assets and liabilities are determined for each temporary difference and for unused losses, as applicable, at rates expected to be in effect when the asset is realized or the liability is settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income or equity in the period that includes the substantive enactment date. Deferred tax assets are recognized to the extent that it is probable that the assets can be recovered.

### **Future accounting changes**

The following new IFRS pronouncement has been issued but is not yet effective and may have a future impact on the Company's consolidated financial statements.

IFRS 9, *Financial Instruments* ["IFRS 9"], was issued in November 2009 and amended in October 2010, November 2013, and July 2014, and is effective for years beginning on or after January 1, 2018, to be applied retrospectively, or on a modified retrospective basis. It is intended to replace IAS 39. The project has been divided into three phases: classification and measurement, impairment of financial assets, and hedge accounting. IFRS 9's classification and measurement methodology provides that financial assets are measured at either amortized cost or fair value on the basis of the entities business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. The classification and measurement for financial liabilities remains generally unchanged. The new standard replaces the existing incurred loss model used for measuring the allowance for credit losses with an expected loss model. The standard introduces a new hedge accounting model, together with corresponding disclosures about risk management activity for those applying hedge accounting. Management is currently evaluating the potential impact that the adoption of IFRS 9 will have on the Company's consolidated financial statements.

IFRS 15, *Revenue from Contracts with Customers* ["IFRS 15"], was issued in May 2014 and is effective for years beginning on or after January 1, 2018, to be applied retrospectively or on a modified retrospective basis. IFRS 15 clarifies revenue recognition principles, provides a robust framework for recognizing revenue and cash flows arising from contracts with customers and enhances qualitative and quantitative disclosure requirements. IFRS 15 does not apply to lease contracts, financial instruments and other related contractual rights and obligations and insurance contracts. Management is currently evaluating the potential impact that the adoption of IFRS 15 will have on the Company's consolidated financial statements.

IFRS 16, *Leases* ["IFRS 16"], will replace IAS 17, *Leases* ["IAS 17"]. IFRS 16 substantially carries forward IAS 17 accounting requirements for lessor accounting, with additional disclosure requirements. For lessee accounting, the new standard will result in almost all leases being accounted for similar to finance leases under IAS 17, including leases previously accounted for as operating leases. IFRS 16 is to be effective for fiscal years beginning on or after January 1, 2019. Management is currently evaluating the potential impact that the adoption of IFRS16 will have on the Company's consolidated financial statements.

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

### **3. CRITICAL ACCOUNTING ESTIMATES AND USE OF JUDGMENTS**

The preparation of financial statements in accordance with IFRS requires management to make estimates and exercise judgments that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. The estimates and judgments are made based on information available as at the date the consolidated financial statements are issued. Accordingly, actual results may differ from those recorded amounts. Areas of financial reporting that require management's estimates and judgments are discussed below.

#### **Allowance for credit losses**

Judgment is required as to the timing of establishing an allowance for credit losses and the amount of the required allowance taking into consideration counterparty creditworthiness, the fair value of underlying collateral, current economic trends, the expected residual value of the underlying leased assets and past experience.

#### **Deferred tax assets**

Deferred tax assets are recognized for unused income tax losses to the extent that it is probable that taxable income will be available against which the losses can be utilized. Judgment is required to determine the amount of deferred tax assets that can be recognized based upon the likely timing and level of future taxable profits together with future tax-planning strategies.

#### **Stock option expense**

Compensation expense relating to stock option awards granted by the Company to employees and non-employees in exchange for services rendered is based on the fair value of the option. The stock option fair value is determined using the Black - Scholes option valuation model which requires the use of assumptions and is, by its nature, subject to measurement uncertainty.

#### **Useful lives and residual values of equipment under operating leases**

The Company's equipment under operating leases are recorded at cost and depreciated over their estimated useful lives to an estimated residual value using the straight-line method. The Company determines the economic useful life based on management's estimate of the period which the asset will generate revenue. The residual values are based on historical experience and economic factors. Management will periodically review the appropriateness of the estimated useful lives and residual values based on changes in economic circumstances and other factors. Changes in these estimates would result in a change in future depreciation expense.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

**Business combinations**

Business combinations require management to exercise judgment in measuring the fair value of the assets acquired, equity instrument issued, and liabilities and contingent liabilities incurred or assumed.

**Investment in joint venture**

The cost of the investment in joint venture requires management to exercise judgment in measuring the fair value of the assets contributed by the Company to the joint venture.

**Intangible assets valuation - customer relationships**

The Company's customer relationships requires management to use judgment in estimating the fair value of this intangible asset acquired in a business combination and uses internally developed valuation models that consider various factors and assumptions including forecasted cash earnings, growth rates and discount rates. Management also uses judgment in estimating customer attrition rates to determine the appropriate amortization period for the customer relationship intangible asset.

**Goodwill valuation**

Goodwill is reviewed annually for impairment, or more frequently when there are indicators that impairment may have occurred, by comparing the carrying value to its recoverable amount. Management uses judgment in estimating the recoverable values of the Company's CGUs and uses internally developed valuation models that consider various factors and assumptions including forecasted cash earnings, growth rates and discount rates. The use of different assumptions and estimates could influence the determination of the existence of impairment and the valuation of goodwill.

**Distribution dividend valuation**

The fair value of the distribution dividend requires management to exercise judgment in measuring the fair value of the assets and liabilities distributed. The Company used independent valuers to model and assess the fair value.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

#### 19th Capital Group LLC

On December 30, 2016, the Company acquired a 49.99% interest in 19th Capital Group LLC ["19th Capital"], a joint venture involved in the leasing of highway tractors and trucks in the U.S. The Company contributed \$963,378 in finance receivables and related assets and liabilities, and received loans receivable of \$829,108 and net equity of \$134,270.

The Company's interest in 19th Capital is accounted for using the equity method in the consolidated financial statements. The following is a summary of financial information of the joint venture and a reconciliation with carrying amount of the investment in the consolidated financial statements:

| Summarized statement of financial position of 19th Capital:              | <u>2016</u>    |
|--|----------------|
| Finance receivables and equipment under operating leases                 | 1,443,812      |
| Other assets (including cash and cash equivalents of \$8,607)            | 27,085         |
| Current liabilities  | (12,835)       |
| Debt   | (1,189,223)    |
| Equity   | <u>268,839</u> |
| Carry amount of the Company's investment (including goodwill of \$1,576) | <u>135,846</u> |

Included in the debt above is \$828,976 payable to the Company.

The Company has recorded nil income from its investment in 19th Capital year ended December 31, 2016 as the joint venture arrangement was entered into on December 30, 2016.

December 31, 2016

**9. GOODWILL**

|  | 2016             | 2015 (1)         |
|--|------------------|------------------|
|  | \$               | \$               |
| <b>Balance, beginning of year</b>                | <b>1,280,171</b> | <b>471,110</b>   |
| Additions from new acquisitions <i>[note 22]</i> | 42,527           | 705,817          |
| Distributed in separation transaction            | (7,890)          | —                |
| Foreign exchange rate adjustments                | (32,165)         | 103,244          |
| <b>Balance, end of year</b>                      | <b>1,282,643</b> | <b>1,280,171</b> |

(1) The prior period has been retrospectively restated for finalization of the measurement of assets and liabilities acquired, and purchase price allocation [note 22].

Goodwill has been allocated to the following CGUs as at December 31:

|  | 2016             | 2015             |
|--|------------------|------------------|
|  | \$               | \$               |
| Fleet Management CGU                   | 1,282,643        | 1,272,097        |
| CGUs related to distributed operations | —                | 8,074            |
|  | <b>1,282,643</b> | <b>1,280,171</b> |

For the purpose of impairment testing, the recoverable amount of the Fleet Management CGU has been determined based on its value in use. The value in use method is based on estimated future cashflows over a five-year period referenced to the most recent financial forecasts approved by management and actual historic results, discounted to a present value. Beyond the initial five-year period cash flows were estimated to grow at perpetual annual rates of up to 4%. The discount rates the Company applied in determining the the recoverable amount was 11.9%, which comprised a risk-free rate, equity risk premium, size premium and company-specific risk premium. The risk-free rate, equity risk premium and size premium were based on data from external sources, whereas the company-specific risk premium was based on factors considered by management to be specific to the business. The assumptions used were consistent with those observed in the Company's recent arm's-length business acquisitions.

In considering the sensitivity of the key assumptions discussed above, management determined that there is no reasonable possible change in any of the above that would result in the carrying value of the Fleet Management CGU to exceed its recoverable value.

| <b>Total secured borrowings</b>   | <b>17,862,038</b>      |  |   |               |

- (1) Represents the weighted average stated interest rate of outstanding debt at year end, and excludes amortization of deferred financing costs, premiums or discounts, stand-by fees and the effects of hedging.
- (2) The revolving senior credit facility is secured by a general security agreement in favour of the lenders consisting of a first priority interest on all property.
- (3) Amounts have been reclassified to reflect the impact of distributed operations [note 27].

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

The Company was in compliance with all financial and reporting covenants with all of its lenders at December 31, 2016 and 2015.

**Vehicle management asset-backed debt**

Vehicle management asset-backed debt include term notes and variable-funding notes.

Term notes provide a fixed funding amount at the time of issuance.

For term notes, in amortization period, the monthly collection of lease payments allocable to the series is used in the repayment of principal until the notes are paid in full. The amortization period will continue through the earlier of: [i] 125 to 132 months following the commencement of the amortization period; or [ii] when the respective series of notes are paid in full. As at December 31, 2016, term notes, in amortization period had a weighted average floating interest rate of 1.52%, which ranged from 1.19% to 2.57% with expected maturities ranging from 2017 to 2019 [December 31, 2015 - the weighted average interest was 1.20%, which ranged from 0.85% to 2.43%].

Term notes, in revolving period, contain provisions that allow the outstanding debt to revolve for a specified period of time. During the revolving period, the monthly collection of lease payments allocable to each outstanding series creates availability to fund the acquisition of vehicles and/or equipment to be leased to customers. Upon expiration of the revolving period, notes begin amortizing. As at December 31, 2016, term notes, in revolving period had a weighted average floating interest rate of 2.03%, which ranged from 1.77% to 4.35% with expected maturities in 2019 [December 31, 2015 - the weighted average interest was 0.99%, which ranged from 0.93% to 2.18%].

Variable-funding notes provide a committed capacity that may be drawn upon as needed during a commitment period, which is primarily one to two years in duration. Similar to revolving term notes, the monthly collection of lease payments creates availability to fund the acquisition of vehicles and/or equipment to be leased to customers. Available committed capacity under variable-funding notes may be used to fund growth in net investment in fleet leases during the term of the commitment. Upon expiration of the commitment period, variable-funding notes begin amortizing. As at December 31, 2016, variable-funding notes had a weighted average floating interest rate of 1.70%, which ranged from 1.40% to 2.79% with expected maturities in 2019 to 2024 [December 31, 2015 - the weighted average interest was 1.31%, which ranged from 1.05% to 2.73%].

The notes are secured by either a security interest and/or legal ownership in direct financing leases and the Company is also required to maintain certain cash reserves as credit enhancements.

As at December 31, 2016, the Company has access to \$4,156,828 [December 31, 2015 - \$3,475,456] of available financing under its vehicle management asset-backed debt facilities.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

**Securitization programs**

The Company's distributed operations utilized securitization programs, which are secured borrowings collateralized by a specific group of financial assets, through a security interest in the financial assets, and are repayable on the basis of the amounts collected from the related securitized finance receivables. These facilities consist of variable-funding notes.

Variable-funding notes provide a committed capacity that may be drawn upon as needed during a commitment period, which is primarily 364 days in duration. The monthly collection of lease payments creates availability to fund the acquisition of equipment to be leased to customers. Available committed capacity under variable-funding notes may be used to fund growth in net investment in finance leases during the term of the commitment.

Prior to separation of the distributed operations, a portion of these programs were allocated to Element Fleet on a continuing operations basis as these supported assets that have remained with continuing operations post separation. On separation of distributed operations, these allocated notes were replaced with by funding through the term senior credit facility [December 31, 2015 - \$77,735 notes were allocated with a weighted average interest rate of 1.93%].

As at December 31, 2016 and 2015, the continuing operations of the Company had no available financing from these securitization programs.

**Term senior credit facility**

The term senior credit facility is a \$4,699,450 senior revolving facility that has been syndicated to a group of 20 Canadian, US and international banks, and has a maturity date of September 30, 2019. This facility was reduced from \$7,379,222 as at December 31, 2015 as part of the Separation. As at December 31, 2016, \$2,978,122 was drawn on this facility [December 31, 2015 - \$3,214,024 was allocated to continuing operations]. This facility bears interest at the prime rate plus 0.20% or 1-month bankers' acceptance rate plus 1.20% per annum on outstanding Canadian dollar denominated balances [December 31, 2015 - 0.45% and 1.45% per annum, respectively] and US base rate plus 0.20% per annum or 1-month LIBOR rate plus 1.20% per annum on outstanding US dollar denominated balances [December 31, 2015 - 0.45% and 1.45% per annum, respectively]. Additionally, the facility bears interest at the 1-month Bank Bill Swap Bid Rate plus 1.20% per annum on outstanding Australian dollar denominated balances and the 1-month Bank Bill Reference Rate plus 1.20% per annum on outstanding New Zealand dollar denominated balances [December 31, 2015 - 1.45% and 1.45% per annum, respectively]. The term senior credit facility is secured by a general security agreement in favour of the lenders consisting of a first priority interest on all property.

As at December 31, 2016, the Company had access to \$1,721,328 [December 31, 2015 - \$2,135,382] of available financing from the term senior credit facility.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

**Restricted funds**

Restricted funds include [i] cash reserves of \$151,470 as at December 31, 2016 [December 31, 2015 - \$275,170], which represent collateral for secured borrowing arrangements; and [ii] cash accumulated in the collection account of \$452,421 as at December 31, 2016 [December 31, 2015 - \$331,390], which represents repayments received on assets financed pursuant to the secured borrowing facilities, which are subsequently remitted back to the facilities on specific dates.

**Contractual maturity of secured borrowings**

The contractual maturity of the secured borrowings gross of interest costs outstanding as at December 31, compared to the maturity of the gross investment in finance receivables and future minimum payments received on equipment under operating leases, is as follows:

| Maturity                         | 2016   |  |              | 2015  |   |       |
|----------------------------------|--|--|--------------|---|---|-------|
|                                  | Secured borrowings gross of interest costs (1) | Finance receivables and equipment under operating leases (2) | %            | Secured borrowings gross of interest costs (1)(3) | Finance receivables and equipment under operating leases (2)(3) | %     |

- (1) Maturity schedule for secured borrowings gross of interest costs has been calculated based on interest expense rates as at the respective period ends and excludes the impact of hedging, and assumes the interest rate remains unchanged for the remaining life of the debt, including floating rate credit facilities.
- (2) Maturity schedule for finance receivables is based on the gross investment balance. For equipment under operating leases, the schedule is based on the existing contractual future minimum lease payments.
- (3) Presented on debt and assets from continuing operations.

(1) Stated interest rate on face principal value.

(2) In accordance with the indentures governing the debentures, the Board of Directors, on October 18, 2016, adjusted the conversion price per share to \$14.32737 for the June 18, 2014 issuance and to \$19.10317 for the May 29, 2015 issuance, to reflect the distributed operations. Subsequently, the conversion price was adjusted on December 28, 2016, the ex-dividend date for dividends to be paid on January 13, 2017, to \$14.18053 for the June 18, 2014 issuance and \$18.90737 for the May 29, 2015 issuance.

**May 29, 2015 Issuance**

On May 29, 2015, the Company closed an offering of \$575,000, 4.25% extendible convertible unsecured subordinated debentures [the "2015 Debentures"]. To determine the initial amount of the respective debt and equity components of the 2015 Debentures issued on May 29, 2015, the carrying amount of the financial liability was first calculated by discounting the stream of future principal and interest payments at the rate of 5.50%, which represents the rate of interest prevailing at the date of issue for instruments of similar terms and risks. The debt component was assigned a value of \$519,886 [net of transaction costs of \$23,757] and the equity component was assigned a value of \$30,356 [net of after-tax transaction costs of \$1,002, and before the impact of deferred taxes].

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

The 2015 Debentures bear interest at an annual coupon rate of 4.25% payable semi-annually on the last day of June and December in each year, commencing on December 31, 2015. The maturity date for the 2015 Debentures was initially December 31, 2015 and was extended to June 30, 2020 on the closing of the acquisition of GE Capital's fleet operations [note 22].

Each 2015 Debenture is convertible into common shares at the option of the holder of a Debenture at any time prior to 5:00 p.m. (Toronto time) on June 30, 2020, initially at a conversion price of \$23.80 per common share [the "2015 Conversion Price"], subject to adjustment in accordance with the indenture agreement. As a result of the separation transaction, the conversion price was adjusted to \$19.10317, and subsequently adjusted to \$18.90737 for cumulative dividends paid on common shares, on December 28, 2016. Holders converting their 2015 Debentures will be entitled to receive, in addition to the applicable number of common shares to be received on conversion, accrued and unpaid interest thereon in cash for the period from the last interest payment date on their 2015 Debentures to, but excluding, the date of conversion.

The Company may redeem, subject to specified conditions and notice, on or after June 30, 2018 and prior to June 30, 2020, in whole or in part from time to time, at a redemption price equal to the principal amount plus accrued and unpaid interest, provided that the volume weighted trading price of the common shares on the TSX for the 20 consecutive days preceding the date on which notice of redemption is given is not less than 125% of the 2015 Conversion Price.

Subject to required regulatory approvals and provided that there is not a current 2015 Debenture event of default, the Company may, at its option and with notice, elect to repay, in whole or in part, the principal amount of the 2015 Debentures that are to be redeemed or that have matured by issuing common shares to the holders of the 2015 Debentures. Payment would be satisfied by delivering that number of common shares obtained by dividing the principal amount of the 2015 Debentures to be redeemed or that have matured, by 95% of the current market price of the common shares on the redemption date or maturity date. Any accrued and unpaid interest will be paid in cash.

**June 18, 2014 Issuance**

On June 18, 2014, the Company closed an offering of \$345,000, 5.125% extendible convertible unsecured subordinated debentures [the "2014 Debentures"]. To determine the initial amount of the respective debt and equity components of the 2014 Debentures issued on June 18, 2014, the carrying amount of the financial liability was first calculated by discounting the stream of future principal and interest payments at the rate of 7.5%, which represents the rate of interest prevailing at the date of issue for instruments of similar terms and risks. The debt component was assigned a value of \$299,264 [net of transaction costs of \$11,660] and the equity component was assigned a value of \$33,135 [net of after-tax transaction costs of \$941, and before the impact of deferred taxes].

The 2014 Debentures bear interest at an annual coupon rate of 5.125% payable semi-annually on the last day of June and December in each year, commencing on December 31, 2014. The maturity date for the 2014 Debentures was initially December 31, 2014 and was extended to June 30, 2019 on the closing of the acquisition of PHH Corporation's fleet management business on July 7, 2014.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

Each 2014 Debenture is convertible into common shares at the option of the holder of a 2014 Debenture at any time after July 7, 2014 and prior to 5:00 p.m. (Toronto time) on June 30, 2019, initially at a conversion price of \$17.85 per common share [the “2014 Conversion Price”], subject to adjustment in accordance with the indenture agreement. As a result of the separation transaction, the conversion price was adjusted to \$14.32737, and subsequently adjusted to \$14.18053 for cumulative dividends paid on common shares, on December 28, 2016. Holders converting their 2014 Debentures will be entitled to receive, in addition to the applicable number of common shares to be received on conversion, accrued and unpaid interest thereon in cash for the period from the last interest payment date on their 2014 Debentures to, but excluding, the date of conversion.

The Company may redeem, subject to specified conditions and notice, on or after June 30, 2017 and prior to June 30, 2019, in whole or in part from time to time, at a redemption price equal to the principal amount plus accrued and unpaid interest, provided that the current market price of the common shares on the date on which notice of redemption is given exceeds 125% of the 2014 Conversion Price.

Subject to required regulatory approvals and provided that there is not a current 2014 Debenture event of default, the Company may, at its option and with notice, elect to repay, in whole or in part, the principal amount of the 2014 Debentures that are to be redeemed or that have matured by issuing common shares to the holders of the 2014 Debentures. Payment would be satisfied by delivering that number of common shares obtained by dividing the principal amount of the 2014 Debentures to be redeemed or that have matured, by 95% of the current market price of the common shares on the redemption date or maturity date. Any accrued and unpaid interest will be paid in cash.

**Common shares**

On May 29, 2015, to fund future acquisitions, the Company closed an offering of 119,735,000 subscription receipts at a price of \$17.00 per subscription receipt for gross proceeds of \$2,035,495. The net proceeds were released to the Company on August 31, 2015 upon the closing of the acquisition of GE Capital's fleet management operations in the US *[note 22]*. Concurrently the subscription receipts were exchanged for 119,735,000 common shares. The issuance included pre-tax transaction costs of \$107,747 [or after-tax transaction costs of \$79,504].

**Common share dividends**

During the year ended December 31, 2016, the Company paid \$38,644 in common share dividends, or \$0.10 per common share [year ended December 31, 2015 - \$nil].

As at December 31, 2016, un-accrued common share dividends were \$9,678, or \$0.025 per common share [December 31, 2015 - \$9,653 or \$0.025 per common share].

**Preferred shares**

On May 29, 2015, the Company issued, through a public offering, 6,900,000 6.50% Cumulative 5-Year Rate Reset Preferred Shares, Series G ["Series G shares"] at a price of \$25.00 per preferred share for gross proceeds of \$172,500. The issuance included pre-tax transaction costs of \$5,551 [or after-tax transaction costs of \$3,957].

For each five-year period, holders of the Series G shares are entitled to receive a fixed, cumulative, preferential cash dividend, if, as and when declared by the Board of Directors, payable quarterly on the last business day of March, June, September and December in each year. The annual dividend rate will reset at each five-year period to the non-callable Government of Canada bond yield with a term to maturity of five years plus 5.34%. The Company will have the right to redeem the Series G shares on September 30, 2020, and on September 30 every five years thereafter for \$25 per Series G share, plus accrued and unpaid dividends. Subject to the right of the Company to redeem the Series G shares, the holders of the Series G shares will have the right on September 30, 2020, and on September 30 every five years thereafter, to convert all or any of the Series G shares into Series H shares, on the basis of one Series H share for each Series G share converted. Holders of Series H shares are entitled to receive floating rate cumulative preferential cash dividends, if, as and when declared by the Board of Directors, payable quarterly on the last business day of March, June, September and December in each year. The annualized floating quarterly dividend rate will equal the sum of the average three-month Government of Canada Treasury Bill rate plus 5.34%.

On June 18, 2014, the Company issued, through a public offering, 5,000,000 6.40% Cumulative 5-Year Rate Reset Preferred Shares, Series E ["Series E shares"] at a price of \$25.00 per preferred share for gross proceeds of \$125,000. On July 8, 2014, the underwriters to the prospectus offering exercised their over-allotment option that resulted in the issuance of 321,900 Series E preferred shares at a price of \$25 per share

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

December 31, 2016

for gross proceeds of \$8,048. The issuance included pre-tax transaction costs of \$4,146 [or after-tax transaction costs of \$3,054].

For each five-year period, holders of the Series E shares are entitled to receive a fixed, cumulative, preferential cash dividend, if, as and when declared by the Board of Directors, payable quarterly on the last business day of March, June, September and December in each year. The annual dividend rate will reset at each five-year period to the non-callable Government of Canada bond yield with a term to maturity of five years plus 4.72%. The Company will have the right to redeem the Series E shares on September 30, 2019, and on September 30 every five years thereafter for \$25 per Series E share, plus accrued and unpaid dividends. Subject to the right of the Company to redeem the Series E shares, the holders of the Series E shares will have the right on September 30, 2019, and on September 30 every five years thereafter, to convert all or any of the Series E shares into Series F shares, on the basis of one Series F share for each Series E share converted. Holders of Series F shares are entitled to receive floating rate cumulative preferential cash dividends, if, as and when declared by the Board of Directors, payable quarterly on the last business day of March, June, September and December in each year. The annualized floating quarterly dividend rate will equal the sum of the average three-month Government of Canada Treasury Bill rate plus 4.72%.

On March 7, 2014, the Company issued, through a public offering, 5,126,400 6.50% Cumulative 5-Year Rate Reset Preferred Shares, Series C ["Series C shares"] at a price of \$25.00 per preferred share for gross proceeds of \$128,160. The issuance included pre-tax transaction costs of \$4,639 [or after-tax transaction costs of \$3,416].

For each five-year period, holders of the Series C shares are entitled to receive a fixed, cumulative, preferential cash dividend, if, as and when declared by the Board of Directors, payable quarterly on the last business day of March, June, September and December in each year. The annual dividend rate will reset at each five-year period to the non-callable Government of Canada bond yield with a term to maturity of five years plus 4.81%. The Company will have the right to redeem the Series C shares on June 30, 2019, and on June 30 every five years thereafter for \$25 per Series C share, plus accrued and unpaid dividends. Subject to the right of the Company to redeem the Series C shares, the holders of the Series C shares will have the right on June 30, 2019, and on June 30 every five years thereafter, to convert all or any of the Series C shares into Series D shares, on the basis of one Series D share for each Series C share converted. Holders of Series D shares are entitled to receive floating rate cumulative preferential cash dividends, if, as and when declared by the Board of Directors, payable quarterly on the last business day of March, June, September and December in each year. The annualized floating quarterly dividend rate will equal the sum of the average three-month Government of Canada Treasury Bill rate plus 4.81%.

On December 17, 2013, the Company issued, through a public offering, 4,600,000 6.60% Cumulative 5-Year Rate Reset Preferred Shares, Series A ["Series A shares"] at a price of \$25.00 per preferred share for gross proceeds of \$115,000. The issuance included pre-tax transaction costs of \$6,281 [or after-tax transaction costs of \$4,613], inclusive of \$2,119 in key management compensation.

For each five-year period, holders of the Series A shares are entitled to receive a fixed, cumulative, preferential cash dividend, if, as and when declared by the Board of Directors, payable quarterly on the last business

December 31, 2016

day of March, June, September and December in each year. The annual dividend rate will reset at each five-year period to the non-callable Government of Canada bond yield with a term to maturity of five years plus 4.71%. The Company will have the right to redeem the Series A shares on December 31, 2018, and on December 31 every five years thereafter for \$25 per Series A share, plus accrued and unpaid dividends. Subject to the right of the Company to redeem the Series A shares, the holders of the Series A shares will have the right on December 31, 2018, and on December 31 every five years thereafter, to convert all or any of the Series A shares into Series B shares, on the basis of one Series B share for each Series A share converted. Holders of Series B shares are entitled to receive floating rate cumulative preferential cash dividends, if, as and when declared by the Board of Directors, payable quarterly on the last business day of March, June, September and December in each year. The annualized floating quarterly dividend rate will equal the sum of the average three-month Government of Canada Treasury Bill rate plus 4.71%.

**Preferred share dividends**

During the year ended December 31, 2016, the Company paid \$35,648 in preference share dividends [2015 - \$31,407].

As at December 31, 2016, the un-accrued cumulative preference share dividends were \$98 [2015 - \$98].

**13. SHARE-BASED COMPENSATION**

Share-based compensation expense consists of the following for the year ended December 31:

|                                   | 2016          | 2015   |
|-----------------------------------|---------------|--------|
|                                   | \$            | \$     |
| [a] Stock options                 | <b>16,020</b> | 21,566 |
| [b] Deferred share units          | <b>3,062</b>  | 3,433  |
| [c] Performance share units       | <b>24,772</b> | 20,372 |
| [d] Restricted share units        | <b>429</b>    | —      |
|                                   | <b>44,283</b> | 45,371 |
| Allocated as:                     |               |        |
| Share-based compensation (1)      | <b>22,485</b> | 23,831 |
| Transaction and integration costs | <b>21,797</b> | 21,540 |
|                                   | <b>44,282</b> | 45,371 |

(1) Excluded in the year ended December 31, 2016 is 4,346 of stock option expenses and \$2,627 of PSU expenses, [year ended December 31, 2015 - \$8,253 of stock option expenses, and \$2,113 of PSU expenses, respectively] for share-based compensation recognized in the net income from distributed operations.

| Granted                               | 8,461,877                          | 16.43   |
| Forfeited                             | (401,137)                          | 13.83   |
| Expired                               | (39,730)                           | 8.34  |
| Exercised (1)                         | (2,522,572)                        | 8.35  |
| <b>Outstanding, December 31, 2015</b> | <b>22,353,854</b>                  | <b>12.31</b>  |
| Granted                               | <b>4,083,574</b>                   | <b>12.18</b>  |
| Forfeited                             | <b>(404,797)</b>                   | <b>14.52</b>  |
| Expired                               | <b>(64,190)</b>                    | <b>11.75</b>  |
| Exercised (1)                         | <b>(1,230,879)</b>                 | <b>5.22</b>   |
| <b>Outstanding, December 31, 2016</b> | <b>24,737,562</b>                  | <b>10.37</b>  |

(1) Weighted average share price of options exercised during the year ended December 30, 2016 was \$14.25 [year ended December 31, 2015 - \$18.14].

(2) Upon the Separation, the exercise price of an Element Fleet option was adjusted to approximately 79.4% of the original exercise price. At the time of separation there were 22,556,684 options outstanding with a weighted average strike price of \$12.61, and the weighted average share price on these options was adjusted to \$10.02.

The Element Board determined that, upon completion of the distribution to the shareholders of the distributed operations, it would be in the best interest of Element that each outstanding option be exchanged for one Element Fleet option and one ECN Capital option, both of which will, upon vesting, entitle the holder to acquire one Element Fleet common share and one ECN Capital common share respectively. The original exercise price of each outstanding Element option was allocated in part to the Element Fleet option such that an amount equal to the tax neutral transaction proportion of the original exercise price will be payable to Element Fleet for each common share; this amount has been determined to be approximately 79.4% of the original exercise price. An amount equal to the remainder of the original exercise price will be payable to ECN Capital for each ECN Capital common share. The terms for these options are a continuation of the earlier granted Element option. The participating Element directors, officers, employees and consultants with these options are permitted to hold and exercise his or her Element Fleet and ECN Capital options received as part the Separation in accordance with their terms as long as they remain an employee or director of Element Fleet, ECN Capital or its successors or affiliates.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

The fair value of the options granted during the year ended December 31 was determined using the Black-Scholes option valuation model with inputs to the model as follows:

|   | <b>Unit</b> | <b>2016</b>  | <b>2015</b> |
|---|-------------|--------------|-------------|
| Weighted average share price              | \$          | <b>13.17</b> | 16.43       |
| Average term to exercise                  | Years       | <b>7.0</b>   | 7.0         |
| Share price volatility                    | %           | <b>33.1</b>  | 27.7        |
| Weighted average expected annual dividend | \$          | <b>0.10</b>  | 0.00        |
| Risk-free interest rate                   | %           | <b>1.21</b>  | 1.02        |
| Forfeiture rate                           | %           | <b>1.02</b>  | 1.02        |

As at December 31, 2015, the following employee and director stock options to purchase common shares were outstanding:

| <b>Range of exercise prices</b> | <b>Weighted average remaining life [in years]</b> | <b>Options outstanding</b> |                   |                   |

**[i] Deferred share units ["DSU"]**

Subsequent to the distribution to the shareholders of the distributed operations, Element DSUs were adjusted such that the underlying share applicable to each Element DSU shall refer to an Element Fleet common share. The aggregate number of Element Fleet DSUs for each Element Fleet participant shall be equal to (A) the number of Element DSUs held multiplied by (B) the fair market value of an Element common share immediately prior to the Separation divided by the fair market value of an Element Fleet common share following completion of the Separation, with the fair market value determined by the Board based on an independent valuation performed; this amount has been determined to be 1.239245 times the Element DSUs. This adjustment provides Element DSU holders with an aggregate value after the Separation equal to the aggregate value held immediately prior to the Separation, 379,641 units were issued to effect the distribution.

As at December 31, 2016, the fair value of DSUs recorded on the consolidated statements of financial position as accounts payable and accrued liabilities was \$21,244 [December 31, 2015 – \$24,224].

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

**[ii] Performance share units ["PSU"]**

Subsequent to the distribution to the shareholders of the distributed operations, Element PSUs were adjusted such that for each Element PSU outstanding, the PSU is referenced to an Element Fleet common share ["EFN PSU"], and an additional PSU was issued and referenced to an ECN Capital common share ["ECN PSU"], such that the aggregate value immediately following the distribution is equal to the aggregate value of the Element PSUs immediately prior to the distribution, 1,386,576 ECN PSUs were issued to effect the distribution.

As at December 31, 2016, 1,331,771 EFN PSUs and 1,326,952 ECN PSUs remain unvested and outstanding and the amortized fair value of PSUs recorded on the consolidated statements of financial position as accounts payable and accrued liabilities was \$18,770 [December 31, 2015 - 2,222,952 unvested PSUs and \$11,547 of liabilities]. The PSUs outstanding will vest on achievement of specific performance conditions over 2017.

**[iii] Restricted share units ["RSU"]**

As at December 31, 2016, 636,352 RSUs remain unvested and outstanding and the amortized fair value of RSUs recorded on the consolidated statements of financial position as accounts payable and accrued liabilities was \$376. The RSUs outstanding will vest over one, two and three years.

**[iv] Hedging of DSUs, PSUs and RSUs**

As at December 31, 2016, the Company has hedged 1,399,652 Element Fleet referenced share units and 1,326,953 ECN Capital referenced share units, with net derivative liabilities of \$2,078, which will be applied to the settlement of PSU and RSU awards [December 31, 2015 - 3,653,456 share units hedged and net derivative assets of \$1,703 for PSU and DSU awards].

**14. SERVICE AND OTHER REVENUE**

Service and other revenue, include fuel cards, accident management services and maintenance services revenues. Also included in service and other revenue are syndication fees, which represent commissions received when the Company facilitates a lease arrangement between a lessee and a third party lessor.

Service and other revenue are net of cost of goods sold of \$61,802 for the year ended December 31, 2016, respectively [2015 - \$48,713].

[1] Deferred tax assets and liabilities are presented on the consolidated statements of financial position net by entity

Management has concluded the deferred tax asset of \$156,895 meets the relevant recognition criteria under IFRS. Management's conclusion is supported by embedded profits in existing finance receivables and the future reversal of existing taxable temporary differences which are expected to produce sufficient taxable income to realize the deferred tax asset.

[ii] There are no unused tax losses and temporary differences that have not been recognized for the year ended December 31, 2016.

|  | <b>Principal place<br/>of business</b> |
|--|--|
| Element Financial (US) Corp.                             | US                                     |
| Element Vehicle Management Services LLC                  | US                                     |
| CEI Group Inc.   | US                                     |
| Chesapeake Finance Holdings LLC                          | US                                     |
| Chesapeake Finance Holdings II LLC                       | US                                     |
| Chesapeake Funding LLC                                   | US                                     |
| Chesapeake Funding II LLC                                | US                                     |
| Gelco Corporation  | US                                     |
| Element Fleet Management Inc.                            | Canada                                 |
| Element Fleet Lease Receivable LP                        | Canada                                 |
| Element Fleet Services Australia PTY Ltd.                | Australia                              |
| Custom Fleet NZ  | New Zealand                            |
| Element Fleet Management Corporation Mexico S.A. de C.V. | Mexico                                 |

#### [b] Subsidiaries with restrictions

The Company's continuing operations have restrictions on its ability to access or use its assets and settle its liabilities in Chesapeake Finance Holdings LLC, Chesapeake Finance Holdings II LLC, Chesapeake Funding LLC, Chesapeake Funding II LLC, and Element Fleet Lease Receivable LP. These subsidiaries facilitate the transfer of financial assets and related property or interests, in connection with funding facilities, and the activities of these entities are governed by their constituting agreements and debt agreements. Assets held as collateral by these subsidiaries for such funding facilities are not available to satisfy the claims of creditors of the Company. The carrying amounts of assets and liabilities in these subsidiaries as at December 31, 2016 were \$11,673,122 and \$10,078,309, respectively [2015 - \$11,672,535 and \$10,286,165, respectively].

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

**17. RELATED PARTY TRANSACTIONS**

**Notes Receivable**

The notes receivable of \$22,078 as at December 31, 2016 [December 31, 2015 - \$50,819] represent loans to certain employees and officers of the Company. These loans bear interest at a rate of 3% per annum. Interest is payable monthly or annually, and the principal is payable on demand in the event of non-payment of interest. The loans were granted in order to help finance the purchase of the Company's shares and are secured by the shares purchased with full recourse to the employee.

The changes in the notes receivable during the year ended December 31 were as follows:

|  | <b>2016</b>     | <b>2015</b> |
|--|-----------------|-------------|
|  | \$              | \$          |
| <b>Notes receivable, beginning of year</b>     | <b>50,819</b>   | 45,299      |
| Additions                                      | <b>6,060</b>    | 8,696       |
| Interest income                                | <b>1,236</b>    | 1,335       |
| Repayments [interest and principal]            | <b>(5,176)</b>  | (4,511)     |
| Transferred to ECN Capital Corp. on separation | <b>(30,861)</b> | —           |
| <b>Notes receivable, end of year</b>           | <b>22,078</b>   | 50,819      |

**Compensation of directors and key management**

The remuneration of directors and key management personnel of the Company were as follows for the years ended December 31:

|                                | <b>2016</b>   | <b>2015</b>   |
|--------------------------------|---------------|---------------|
|                                | \$            | \$            |
| Salaries, bonuses and benefits | <b>33,241</b> | <b>26,636</b> |
| Share-based compensation       | <b>10,292</b> | <b>45,101</b> |
|                                | <b>43,533</b> | <b>71,737</b> |

The above amounts include compensation expense that have been allocated to distributed operations, through both corporate overhead or direct allocation. Included in salaries, bonuses and benefits, are accrued liabilities of \$24,900 [representing the Company's portion under the separation agreement] for employment arrangements for former Element Financial Corporation executives, who became ECN Capital Corp. executives as a result of the separation.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

**18. EARNINGS PER SHARE**

Basic earnings per share are as follows for the year ended December 31:

|  | <u>2016</u>        | <u>2015</u>        |
|--|--------------------|--------------------|
| Net income from continuing operations attributable to shareholders         | \$ 190,264         | \$ 64,660          |
| Cumulative dividends on preferred shares                                   | \$ (35,648)        | \$ (31,047)        |
| Net income from continuing operations available to common shareholders     | \$ 154,616         | \$ 33,613          |
| Net income from distributed operations attributable to common shareholders | \$ 223,075         | \$ 109,771         |

| Weighted average number of common shares outstanding - basic [number]      | <u>386,525,125</u> | <u>305,230,121</u> |
| Basic earnings per share from continuing operations                        | \$ 0.40            | \$ 0.11            |
| Basic earnings per share from distributed operations                       | \$ 0.58            | \$ 0.36            |
| Total basic earnings per share   | <u>\$ 0.98</u>     | <u>\$ 0.47</u>     |

# Element Fleet Management Corp. [formerly, Element Financial Corporation]

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

Diluted earnings per share is as follows for the year ended December 31:

|  | <b>2016</b>        | <b>2015</b> |
|--|--------------------|-------------|
| Net income from continuing operations available to common shareholders adjusted for the effects of dilution  | <b>\$ 154,616</b>  | \$ 33,613   |
| Net income from distributed operations available to common shareholders adjusted for the effects of dilution | <b>\$ 223,075</b>  | \$ 109,771  |
| Total net income available to common shareholders adjusted for the effects of dilution                       | <b>\$ 377,691</b>  | \$ 143,384  |
| Weighted average number of common shares outstanding - basic [number]  | <b>386,525,125</b> | 305,230,121 |
| Dilutive stock options and warrants [number]   | <b>6,206,132</b>   | 6,151,209   |
| Weighted average number of common shares outstanding - diluted [number]                                      | <b>392,731,257</b> | 311,381,330 |
| Diluted earnings per share from continuing operations  | <b>\$ 0.39</b>     | \$ 0.11     |
| Diluted earnings per share from distributed operations   | <b>\$ 0.57</b>     | \$ 0.35     |
| Total diluted earnings per share   | <b>\$ 0.96</b>     | \$ 0.46     |

Instruments outstanding as at December 31, 2016 that could potentially dilute basic earnings per share in the future, but were not included in the calculation of diluted earnings per share because they were anti-dilutive, include 5,957,609 stock options for the year ended December 31, 2016 [2015 - 8,988,176 stock options].

In addition, the convertible debentures [note 11] were excluded from the diluted earnings per share calculation as these were anti-dilutive for the years ended December 31, 2016 and 2015.

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

**19. DERIVATIVE FINANCIAL INSTRUMENTS**

In the normal course of business, and consistent with its risk management program, the Company enters into interest rate derivatives to manage interest rate risk, foreign exchange forward agreements to manage foreign currency exposure, and total return swaps to manage exposure to share-based compensation.

**Cash flow hedging relationships**

The following table presents the fair value changes related to the cash flow hedges included in the Company's results for the years ended December 31:

|  | <b>2016</b>     | <b>2015</b>     |
|--|-----------------|-----------------|
|  | \$              | \$              |
|  | <hr/>           | <hr/>           |
| Foreign exchange agreements recorded in other revenues           | <b>(32,360)</b> | 10,977          |
| Fair value changes recorded in other comprehensive income (loss) | <b>69,434</b>   | <b>(23,919)</b> |
|  | <hr/>           | <hr/>           |

**Fair values of derivatives designated in hedging relationships**

The following table summarizes the fair values of the derivative financial instruments designated in an accounting hedging relationship for continuing operations, as at December 31:

|                             | 2016<br>\$    | 2015<br>\$     |
|-----------------------------|---------------|----------------|
| Interest rate contracts     | 3,125         | (3,768)        |
| Foreign exchange agreements | 38,659        | 553            |
| Total return swaps          | (2,078)       | 1,703          |
|                             | <b>39,706</b> | <b>(1,512)</b> |

**Offsetting of derivative assets and liabilities**

The following table presents a summary of the Company's derivative portfolio, which includes the gross amounts of recognized financial assets and liabilities; the amounts offset in the consolidated statements of financial position; the net amounts presented in the consolidated statements of financial position; the amounts subject to an enforceable master netting arrangement or similar agreement that were not included in the offset amount above; and the amount of cash collateral received or pledged.

|   | Gross amounts of recognized financial instruments before netting on the Consolidated Statements of Financial Position | Gross amounts of recognized financial instruments set-off in the Consolidated Statements of Financial Position | Net amount of financial instruments presented in the Consolidated Statements of Financial Position | Amounts subject to an enforceable master netting arrangement or similar agreement that are not set-off in the Consolidated Statements of Financial Position |            |            |
|---|---|--|--|---|------------|------------|
|   |   |  |  | Amounts subject to an enforceable master netting agreement  | Collateral | Net Amount |
| <b>As at December 31, 2016</b>              |   |  |  |   |            |            |
| Derivative financial instrument assets      | 67,238  | —  | 67,238   | 21,770  | —          | 45,468     |
| Derivative financial instrument liabilities | 27,532  | —  | 27,532   | 21,770  | 2,570      | 3,192      |
| <b>As at December 31, 2015 (1)</b>          |   |  |  |   |            |            |
| Derivative financial instrument assets      | 18,114  | —  | 18,114   | 11,189  | —          | 6,925      |
| Derivative financial instrument liabilities | 33,359  | —  | 33,359   | 11,189  | 13,310     | 8,860      |

(1) Derivatives related to distributed operations are included in the comparative period end.

**20. CAPITAL DISCLOSURES**

The Company's objectives when managing capital are to ensure sufficient liquidity to support its financial objectives and strategic plans, to ensure its financial covenants are met and to maximize shareholder value.

The Company's capitalization is as follows:

|  | <b>December 31,<br/>2016</b> | <b>December 31,<br/>2015</b> |
|--|------------------------------|------------------------------|
|  | \$                           | \$                           |
| Secured borrowings                       | <b>12,983,535</b>            | 17,862,038                   |
| Convertible debentures                   | <b>855,688</b>               | 836,472                      |
| Total debt                               | <b>13,839,223</b>            | 18,698,510                   |
| Accounts payable and accrued liabilities | <b>552,794</b>               | 650,366                      |
|  | <b>14,392,017</b>            | 19,348,876                   |
| Shareholders' equity                     | <b>3,981,354</b>             | 5,717,083                    |
|  | <b>18,373,371</b>            | 25,065,959                   |

**21. SEGMENTED INFORMATION**

**Operating Segments**

Prior to the separation of the Company [note 27], the Company had two operating and reporting segments consisting of [a] the Fleet Management segment and [b] the Commercial Finance segment, which aggregated the Rail Finance, the C&V Finance and the Aviation verticals ["Commercial Finance"].

Following the Separation, the Company had one reporting segment, which aggregates the previously reported Fleet Management segment with other fleet like assets and operations that were transferred to the segment as part of the separation arrangement.

|  | 1,728,761               | 13,495,807 | 1,894,885 | 17,119,453 | 1,878,859               | 14,026,482 | 2,211,464 | 18,116,805 |

Geographic net financial income, excluding interest expense ["Financial revenue"] is based on the location of customers and select assets are based on the location of the assets.

**22. BUSINESS ACQUISITION**

**Acquisition of the CEI Capital Group, Inc. ["CEI Group"]**

On December 30, 2016, the Company completed the acquisition of the CEI Group a business that is engaged in providing professional auto claims outsourcing services and fleet management services.

The Company completed the transaction for cash consideration of \$41,720. The purchase price was funded from cash and the existing senior facility.

## Element Fleet Management Corp. [formerly, Element Financial Corporation]

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

The following table summarizes the fair value assigned to the assets acquired and liabilities assumed at the acquisition date:

|  | December 30, 2016 |
|--|-------------------|
|  | \$                |
| <b>Assets acquired</b>                         |                   |
| Accounts receivables and other                 | 17,966            |
| Property, equipment and leasehold improvements | 2,692             |
| Goodwill                                       | 42,527            |
|  | <u>63,185</u>     |
| <b>Liabilities assumed</b>                     |                   |
| Accounts payable and accrued liabilities       | 24,157            |
|  | <u>39,028</u>     |
| <b>Source of financing</b>                     |                   |
| Cash, net of cash acquired of \$2,685          | <u>39,028</u>     |

The excess purchase consideration over the preliminary estimated net fair value of assets acquired of \$42,527 has been allocated to goodwill on a preliminary basis.

#### Prior year acquisition

##### Acquisition of General Electric Company ["GE"] fleet management businesses

On August 31, 2015, the Company completed the acquisition of GE Capital's fleet management operations in the US, and on September 30, 2015, completed the acquisition of GE Capital's fleet management operations in Mexico, Australia and New Zealand [collectively, the "GE Fleet Operations"].

The Company completed the transaction for cash consideration of \$8,894,021 [net of cash acquired, and post closing adjustments]. The purchase price was substantially funded from an increase in the senior facility and funds raised from an equity financing, which closed on May 29, 2015.

| Cash, net of cash acquired of \$8,354  | 8,904,970   |   | 8,894,021  |

The excess purchase consideration over the estimated net fair value of financial and other tangible and intangible assets acquired of \$705,817 has been allocated to goodwill.

The fair value and cost assigned to the customer relationships acquired of \$488,876, and included in intangible assets in the above table was determined using a discounted cash flow methodology, including a five-year forecast and a terminal value using a long term growth rate of 2.0%. A discount rate of 11.9% was used, which comprised a risk-free rate, equity risk premium, size premium and company-specific risk premium. The risk-free rate, equity risk premium and size premium were based on data from external sources, whereas the company-specific risk premium was based on factors considered by management to be specific to the business.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

In connection with this acquisition, the Company incurred the following transaction and integration costs for the year ended:

|  | December 31,<br>2016 | December 31,<br>2015 |
|--|----------------------|----------------------|
|  | \$                   | \$                   |

| Project management   | <b>17,355</b>        | —                    |
| Professional accounting and services firms   | <b>4,331</b>         | —                    |
| Staff rationalization and other compensation costs   | <b>194</b>           | 23,354               |
| Abandonment of leased premises and related charges   | —                    | 1,335                |
| Others   | <b>17,843</b>        | 1,089                |
|  | <b>161,865</b>       | <b>35,005</b>        |
| Total transaction and integration costs related to the acquisition of GE Capital's fleet management operations | <b>161,997</b>       | 181,006              |
| Transaction and integration costs related to prior acquisitions  | —                    | 22,277               |
| Total transaction and integration costs  | <b>161,997</b>       | <b>203,283</b>       |

(1) Total grant date fair value of performance share units granted was \$30,963, of which \$2,885 [net of forfeitures] remains unamortized at December 31, 2016 [December 31, 2015 - \$25,371 unamortized] and will be recognized over the performance period, and vest upon the achievement and satisfaction of integration targets.

(2) Included in the above transaction and integration costs are \$15,845 of employee salaries and compensation for the years ended December 31, 2016 [2015 - \$1,016].

Compensation expense and performance-based compensation expense represent compensation related payment granted and payable to over 140 key personnel in connection with the acquisition and integration of the GE Fleet Operations.

The performance-based compensation expense represents share-based compensation payable in the form of PSUs as either retention payments and/or integration incentives to be vested upon the achievement and satisfaction of integration targets.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

As at December 31, 2016, \$40,411 of transaction and integration costs related to the GE Fleet Transaction remain payable [excluding accrued PSU liabilities, note 13] and are included in accounts payable and accrued liabilities on the consolidated statements of financial position [2015 - \$36,183].

**23. COMMITMENTS**

The Company leases its head office and its regional offices under operating leases expiring on various dates through 2025. As at December 31, the remaining future minimum lease payments are as follows:

|   | <b>2016</b>   | <b>2015</b> |
|---|---------------|-------------|
|   | \$            | \$          |
| Within one year                             | <b>10,794</b> | 13,785      |
| After one year but not more than five years | <b>33,056</b> | 49,357      |
| More than five years                        | <b>19,790</b> | 35,226      |
|   | <b>63,640</b> | 98,368      |

As part of the separation of ECN Capital Corp. from Element, ECN Capital Corp. has committed to pay the Company a portion of the future minimum lease payments on shared office premises, \$972 in 2017 and \$73 in 2018.

The Company enters into commitments to extend credit and provide lease or loan financing to its customers in the ordinary course of business, or commits to purchase equipment for leases. The funding of these commitments is subject to the customer satisfying various conditions and contractual requirements prior to funding. As a result, the total commitments outstanding do not necessarily reflect actual future cash flow requirements. As at December 31, 2016, the Company had \$659,991 of commitments outstanding to provide financing or purchase equipment, and expire or settle on various dates through to December 31, 2017.

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

### **24. FINANCIAL INSTRUMENT RISKS**

#### **Credit risk**

Credit risk is the risk that the Company will incur a loss because its customers and counterparties fail to discharge their contractual obligations. The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties on direct financing leases and loans. Counterparty limits are established by the use of both external and internal credit risk classification systems, which assign each counterparty a risk rating. The Company also manages credit risk through the existence of asset collateral held against both direct financing leases and loans. The Company maintains insurance coverage over these assets to further mitigate risk of loss. In situations where the Company takes possession of collateral under the terms of the direct finance lease or loan agreement, the asset is sold and a gain or loss on disposal is recognized.

The Company also monitors the diversification of its lending across asset class, geography and transaction size. As a result of transaction sizes and collateral arrangements, no individual customer represents a significant credit risk to the Company.

The Company's maximum exposure to credit risk for components of the consolidated statements of financial position as at December 31, 2016 and 2015 is the carrying amounts as disclosed on the statement of financial position.

#### **Liquidity risk**

Liquidity risk is the risk that the Company cannot meet a demand for cash or fund its obligations as they come due. The Company's management oversees the Company's liquidity to ensure the Company has access to enough readily available funds to cover its financial obligations as they come due and sustain and grow its assets and operations under both normal and stress conditions.

The most significant exposure to liquidity risk relates to the repayment of secured borrowings *[note 10]*. This exposure is managed as the cash flows generated by the Company's net investment in leases and loans, and future minimum payments on equipment under operating leases are term matched to meet the repayment requirements.

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

### **Interest rate risk**

Interest rate risk relates to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. In order to mitigate interest rate risk, the Company structures its secured borrowing arrangements to maintain a fixed interest rate spread between the interest paid on both the term funding facilities and the revolving loan facilities and the interest received on the underlying finance receivables. This fixed interest rate spread is achieved by match funding transactions on both a duration and interest rate basis. In some instances, the Company enters into interest rate swaps in order to align the interest rate variability.

The Company does experience short-term interest rate risk on these finance receivables during the period between fixing the contractual rate under the finance contracts with its customers and the locking of the interest rate under its funding facilities. During this time, an upward movement in benchmark rates can negatively impact the spread on the transaction. In order to mitigate this risk, the Company carefully monitors its borrowing costs to ensure its rates reflect appropriate spreads to insulate against sudden unexpected interest rate movements. In order to further mitigate risk, the Company undertakes regular securitizations under its secured borrowing arrangements to ensure its finance contracts are appropriately match-funded by its secured borrowings, which reduces the warehouse period and the likelihood that a significant movement in bond rates will negatively impact the spreads on such transactions. The Company also maintains adequate balance sheet liquidity to allow it flexibility in developing a strategy of holding versus securitizing such finance assets.

After considering the fixed interest rate spread on the secured borrowing programs and high exposure to fixed rate finance receivables described above, the Company's interest rate risk is limited to cash and restricted cash, floating-rate finance receivables that are neither hedged nor part of a match-funded secured borrowing arrangement, senior revolving credit facility, and floating-rate finance receivables that are hedged with interest rate caps and these interest rate caps are out-of-the-money. Based on its exposure as at December 31, 2016, the Company estimates that a 50 basis point increase would decrease net income before taxes by approximately \$5.2 million and a 50 basis point decrease in interest rates would increase net income before taxes by approximately \$5.1 million.

### **Foreign currency risk**

Foreign currency risk is the risk of exposure to foreign currency movements on the Company's lending and/or net investment in foreign subsidiaries, whereby there is a risk the exchange rates will be materially different when a loan or finance receivable is remeasured for accounting purposes, matures or when a foreign subsidiary is divested. The Company mitigates and manages this risk on the Company's lending portfolio by entering into foreign exchange forward contracts to reduce or hedge its exposure to foreign currency risk. The Company currently partially hedges its net investment in foreign subsidiaries. As at December 31, 2016, the Company did not have a significant un-hedged exposure to this type of foreign currency risk, which would have an impact to net income.

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

The Company is also exposed to foreign currency risk related to net income generated from foreign currency denominated assets and operations. This risk represents the impact of fluctuations to the average Canadian and foreign currency exchange rate used to translate the Company's foreign currency denominated net income into Canadian dollar equivalent during each period. The Company may mitigate and manage this type of foreign currency risk by entering into foreign currency forward contracts to reduce or hedge this exposure to foreign currency risk. If net income before business acquisition and separation costs and income taxes in fiscal year 2017 is consistent with the results generated in 2016, each one cent increase (decrease) in the average Canadian/foreign currency exchange rates would be expected to increase/decrease net income before business acquisition costs and income taxes for the year by approximately \$6,785 in the absence of hedging transactions.

### **25. FAIR VALUE OF FINANCIAL INSTRUMENTS**

The Company estimates the fair value of the following financial instruments using the methodology described below.

#### **Valuation methods and assumptions**

##### **Finance receivables and secured borrowings on finance receivables**

The carrying value of finance receivables and secured borrowings approximates fair value. The assertion that the carrying value of the finance receivables approximates fair value requires the use of estimates and significant judgment. Finance receivables and secured borrowings on finance receivables are classified as Level 3 financial instruments. The finance receivables were credit-scored based on an internal model that is not used in market transactions. They comprise a large number of transactions with commercial customers in different businesses, are secured by liens on various types of equipment and may be guaranteed by third parties and cross-collateralized. The fair value of any receivable would be affected by a potential buyer's assessment of the transaction's credit quality, collateral value, guarantees, payment history, yield, term, documents and other legal matters, and other subjective considerations. Value received in a fair market sale transaction would be based on the terms of the sale, the buyer's views of the economic and industry conditions, the Company's and the buyer's tax considerations, and other factors.

##### **Convertible debentures**

The debt component of convertible debentures is recorded at fair value on initial recognition and subsequently carried at amortized cost as presented in note 11. The fair market value of the debt component as at December 30, 2016 was estimated at \$894,737 by discounting the stream of remaining payments at 5.50%, which represents the rate of interest prevailing for instruments of similar terms and risks without the conversion feature. Convertible debentures are classified as Level 2 financial instruments, whereby fair value is determined using valuation techniques and observable inputs.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

**Notes receivable**

The carrying value of the notes receivable approximates their fair value, as the interest rate on this asset is commensurate with market interest rates for this type of asset with similar duration and credit risk. Notes receivable are classified as Level 2 financial instruments, whereby fair value is determined using valuation techniques and observable inputs.

**Derivatives**

The fair values of derivatives are presented in note 19 and are determined by the derivative counterparty using the related interest rate swap curves, foreign exchange forward values, intrinsic values and/or the Company's stock price for the total return swaps. Derivatives are classified as Level 2 financial instruments, whereby fair value is determined using valuation techniques and observable inputs.

**26. SUPPLEMENT TO CONSOLIDATED STATEMENT OF CASH FLOWS**

Cash flow from other non-cash operating assets and liabilities for the year ended:

|  | <b>December 31,<br/>2016</b> | December 31,<br>2015 |
|--|------------------------------|----------------------|
|  | \$                           | \$                   |
|  |                              |                      |
| Changes in other non-cash operating assets and liabilities |                              |                      |
| Accounts receivable and other assets                       | <b>(82,665)</b>              | (127,481)            |
| Accounts payable and accrued liabilities                   | <b>(81,598)</b>              | 106,097              |
| Deferred tax assets  | <b>(45,087)</b>              | (120,709)            |
| Deferred tax liabilities                                   | 7,672                        | (3,266)              |
| Derivative financial instruments                           | <b>(38,106)</b>              | 621                  |
|  | <b>(239,784)</b>             | (144,738)            |

## Element Fleet Management Corp. [formerly, Element Financial Corporation]

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

[in thousands of Canadian dollars, except where otherwise noted and per share amounts]

December 31, 2016

The cash flow of ECN Capital prior to the completion of the distribution has been included in the Company's consolidated statement of cash flows as "distributed operations" and comprised the following amounts:

|   | <b>From<br/>January 1, 2016<br/>to<br/>October 3, 2016</b> | <b>For the<br/>year ended<br/>December 31,<br/>2015</b> |
|---|--|---|

**27. DISTRIBUTED OPERATIONS**

On October 3, 2016, Element completed the separation of its C&V Finance, Aviation Finance and Rail Finance verticals into ECN Capital Corp. ["ECN Capital"] implemented by way of a plan of arrangement.

The distributed operations have been presented and accounted for using IFRS 5, *Non-current Assets Held for Sale and Discontinued Operations*, and IFRIC 17, *Distribution of Non-Cash Assets to Owners*. Under this guidance, a distribution dividend of \$1,710,473 was recorded. The dividend was based on the fair value of the distribution as determined using independent valuers and approved by the Company's Board of Directors. The allocation of the components of equity was determined by allocating the fair value by a pro-rata proportion of share capital and retained earnings.

The operating performance of ECN Capital prior to the completion of the distribution has been included in the Company's consolidated statement of operations as "distributed operations" and comprised the following amounts:

|   | From<br>January 1, 2016 to<br>October 3, 2016 | For the<br>year ended<br>December 31, 2015 |
|---|---|--|
|   | \$  | \$   |
| Net financial income                                  | 152,279                                       | 217,668                                    |
