## Element Announces Conversion Rights for Cumulative 5-Year Rate Reset Preferred Shares, Series E

Toronto, Ontario, August 27, 2019 – Element Fleet Management Corp. (“**Element**” or the “**Corporation**”) (TSX: EFN, EFN.PR.E) announced today that, pursuant to the rights, privileges, restrictions and conditions attaching to the Cumulative 5-Year Rate Reset Preferred Shares, Series E of the Corporation (the “**Series E shares**”), as provided in the Corporation’s restated articles of incorporation dated October 4, 2016, the holders of Series E shares have the right, at their option, on September 30, 2019 (the “**Series E Conversion Date**”) to convert all, or any part, of the then outstanding Series E shares into Cumulative Floating Rate Preferred Shares, Series F of the Corporation (the “**Series F shares**”) on the basis of one Series F share for each Series E share converted (the “**Series E Conversion Privilege**”).

The dividend rate applicable to the Series E shares for the period from and including September 30, 2019 up to, but excluding, September 30, 2024, and the dividend rate applicable to the Series F shares for the period from and including September 30, 2019 up to, but excluding, December 31, 2019, will be determined by the Corporation and announced by way of a news release on September 3, 2019.

Beneficial owners of Series E shares who wish to exercise their Series E Conversion Privilege should communicate with their broker or other nominee to obtain instructions for exercising such Series E Conversion Privilege during the notice period, which will run from September 3, 2019 until 5:00 p.m. (Toronto time) on September 16, 2019.

The foregoing Series E Conversion Privilege is subject to the following: (i) holders of Series E shares shall not be entitled to convert their Series E shares into Series F shares on the Series E Conversion Date if the Corporation determines that there would remain outstanding on the Series E Conversion Date less than 500,000 Series F shares, after taking into account all Series E shares tendered for conversion into Series F shares, and (ii) alternatively, if the Corporation determines that there would remain outstanding on the Series E Conversion Date less than 500,000 Series E shares after taking into account all Series E shares tendered for conversion into Series F shares, then all, but not part, of the remaining Series E shares shall automatically be converted into Series F shares on the basis of one Series F share for each Series E share on the Series E Conversion Date. In either case, the Corporation will give written notice to that effect to the sole registered holder of the Series E shares at least seven days prior to the Series E Conversion Date.
