

Advanced Purchase Program

Guaranteed resale values for your vehicles

What if you could sell your cars and trucks today at guaranteed pricing, take that equity and put it to better use in your fleet? Now you can.

Element's Advanced Purchase Program leverages our remarketing expertise to offer clients a unique way to sell their cars and trucks right now vs waiting days or weeks for a traditional auction sale. If you have surplus cars and trucks, older assets to get off your books or are unsure of possible fluctuations in the market for future vehicle sales, this program is for you.

Selling your vehicles to Element is as easy as 1 – 2 – 3

1 Element evaluates the vehicles you would like to sell and sends you an offer based on market pricing.

2 After you accept our offer, the sales are processed quickly and are credited to your next lease bill. And you are done – no waiting, no hassle, no risk.

3 You give us the keys. Element handles the rest. We'll arrange to have the vehicles picked up from your location and complete any de-identification that is required.

Sell your cars and trucks today, hassle free, fast settlement, with no risk. If this sounds good to you, contact your Element account representative or visit elementfleet.com
