

Client Garage Management

Comprehensive option for client owned garages which enables full transparency into all maintenance activities

Our Client Garage Management program makes it easy for you to consolidate and organize all your vehicle maintenance data in one place to drive meaningful insights, leverage advanced applications and make informed decisions.

Integrated garage service platform provides you with visibility to repair status and workflow to drive compliance and control costs.

Just a few of the many features included with this program:

- Client and vehicle data integrated into one platform
- Preventive maintenance schedule and notifications
- Repair history and scheduled task integration
- Labor rate card integration
- Technician details
- Repair status tracking
- Average service task analytics and goal times
- Parts, purchase order, inventory and warranty management
- Billing and payment management
- Analytics, dashboards and reporting

Advanced maintenance
dashboards, reporting
& analytics
