

# Global Services

## Simplify your globalization strategy

Formed in 1995, the Element-Arval Global Alliance offers a simplified approach to help you manage the complexity of your global fleet. With strategic partnerships in North America, Europe, Asia-Pacific, South America, Latin America and Africa, we provide access to comprehensive fleet management across the globe through a single point of contact.

We provide strategic consulting and best practices for managing global fleets, comprehensive costs analysis and management, and online consolidation and reporting of strategic vehicle fleet data from multiple countries. Local account teams provide expertise and understanding of regional complexities and variations, while a dedicated global account manager focuses on supporting your global strategy.

For more information, contact your Element account manager or visit [ElementArval.com](http://ElementArval.com)

## GLOBAL SERVICES

### Comprehensive support for your global fleet strategy

#### Extended global scale

Managing more than 3 million vehicles in 50 countries and delivering harmonized products and services with customization to meet local demand, the Element-Arval Global Alliance is the worldwide leader in fleet management.

#### Fleet optimization

To support you in all steps of your fleet globalization process, the Element-Arval Global Alliance commits with a Global Service Charter to harmonize the delivery of all services. We also offer the capability to delegate your fleet operations, while maintaining full control of the fleet.

#### Expert advice

To support lowest total cost of ownership and assist in managing a common vehicle policy, our strategic consultants analyze your multi-national data, proactively delivering expert advice, industry trends and leverage our industry leading database to recommend tangible improvements.

#### Global visibility

Our award winning analytics tool aggregates data from all locations, to ensure your fleet strategy delivers the expected, measurable results. We enable transparent performance visibility to monitor key global data points and ensure that your drivers stay safe and mobile.

#### Dedicated team

The Element-Arval Global Alliance offers unique and consistent account management structure across all geographies, enabling a single point of contact model with designated local support for optimization of your fleet
