

# Xcelerate™ for Drivers

## Driver vehicle management made easy and convenient

Xcelerate for Drivers makes it easy for your drivers to tackle fleet tasks quickly and efficiently, whenever and wherever. With a responsive website and mobile applications, keeping up on managing their company vehicle has never been simpler or more convenient.

Web and mobile apps make it easy for your drivers to complete fleet related tasks so they can focus on their core job – servicing your customers.

- Visibility to a “to-do” list format which links each task to direct access for completion in alignment with client policy
- Report mileage
- View service card information
- Review and acknowledge fleet policy documents
- View recall information
- Complete the order of a new vehicle
- Submit required inspections to ensure timely vehicle registration
- Receive preventative maintenance alerts
- Schedule appointments for maintenance and windshield repairs (select National Accounts available in U.S. only)

Drivers have direct access to essential support materials without needing to call you or Element:

- Identify nearby fuel and maintenance suppliers in the Element network and obtain turn-by-turn directions
- Order a replacement fuel/maintenance card if it is lost/stolen
- Request replacement registration card
- Update license plate information
- Obtain PIN at the pump to purchase fuel
