

# Element Xcelerate™

## Taking fleet management to a new level

A customer portal designed with you in mind. Access to your fleet information when and how you need it. With a user centric design, Xcelerate is the central hub to view your fleet data and to take action to optimize the performance of your fleet.

Imagine visibility into how your fleet is performing against metrics you choose and can now track. Real-time access to reporting and advanced analytics puts you in control to make changes to your fleet operation as the need arises.

Vehicle ordering to driver/vehicle management to custom reporting and much more – all at your fingertips and all built on an infrastructure designed for scale, speed and stability.

For more information, contact your Element account manager or visit [elementfleet.com](http://elementfleet.com)

# XCELERATE

## Redefining fleet management

### Xcelerate customer portal

Your fleet at your fingertips – personalized and flexible

- User centric navigation and responsive design allows for easy web access and automatic optimization based on your device's screen resolution
- Administer all critical fleet functions with our vehicle and driver module including reviewing spend activity, update driver details, modify billing assignments, issue fuel cards, terminate assets and more
- Flexibility to support simple report creation and advance report building tools
- Homepage personalization allows you to customize the sizing and graph types of the widgets you view most
- Highlight specific portions of your fleet by leveraging the filter functionality within the widget and further define the analysis by selecting particular spend areas
- Notification center on the homepage allows you to quickly manage outstanding tasks and gain efficiency
